

TSCA Declaration of Conformity

Information on the Toxic Substances Control Act (TSCA), which allows the Environmental Protection Agency (EPA) to restrict the use of substances.

The Frank R. Lautenberg Chemical Safety for the 21st Century Act, enacted on June 22, 2016, includes a provision in TSCA Section 6(h) that requires the U.S. EPA to take accelerated action on certain persistent, bioaccumulative, and toxic (PBT) chemicals to reduce associated risks and exposure to the maximum extent practicable. On January 6, 2021, EPA, which is considered the equivalent of the European Chemicals Agency (ECHA), issued final regulations to reduce exposure to the PBT chemicals listed below. The regulations became legally effective as early as March 2021.

The current version of TSCA from February 2024 ("TSCA Inventory") contains 86,741 chemicals (42,293 of which are listed as active). It is available at <https://www.epa.gov/tsca-inventory/how-access-tsca-inventory>.

ehb electronics gmbh is committed to environmental and health safety. In this context, we strictly observe the control and restriction of chemicals prescribed by laws and authorities. Our products may contain the following chemicals in the corresponding concentrations:

➤ 25068-38-6	Phenol, 4,4'-(1-methylethylidene)bis-	<0,012%
➤ 115-86-6	Phosphoric acid, triphenyl ester	<0,005%
➤ 123-86-4	Acetic acid, butyl ester	<0,002%
➤ 68512-91-4	Hydrocarbons, C3-4-rich, petroleum distillates	<0,002%
➤ 107-98-2	2-Propanol, 1-methoxy-	<0,002%
➤ 141-78-6	Acetic acid ethyl ester	<0,002%

This declaration is made responsibly for the following manufacturer:
